

Custom Choice[™] Cabinetry

Homecrest's unique manufacturing process, Custom Choice, offers beneficial performance features and design flexibility without the customary costs and shipping delays. These robust capabilities provide the capacity for you to create exclusive, highly personalized designs by requesting individualized cabinets that are built to order as compared to standard modifications.

Built-In Cabinet

Tall cabinet with custom opening to accommodate a built-in coffee maker.

Wall Cabinet

Stacked wall cabinet with one drawer at the bottom. Design creates great storage space or built-in desk.

Oven Cabinet

Tall oven cabinet with custom size oven opening. Doors and drawers adjusted to maximize storage space.

Microwave Cabinet

Base microwave cabinet with a custom sized opening to accommodate the built-in microwave's size.

Custom ChoiceTM Ordering Procedures

With flexible manufacturing capabilities, Homecrest® is able to produce cabinets, appliance cabinets, and panels not listed in the Homecrest Price and Specification Guide.

To utilize this process, please use the following procedures:

1. Complete the Custom Choice Request Form on **MasterBrand Connect** and provide a detailed drawing including dimensions of the Custom Choice cabinet. Submitting a floor plan may reduce questions that arise during the engineering process.
2. Email the completed Custom Choice Request Form to the Homecrest Customer Service Department at **hccr@masterbrand.com**.
3. Approved custom configurations will be quoted and assigned a Custom Choice number. This information will be emailed to you. Engineering requires 48 hours to process a request and quote.
4. When placing the order, please include the Custom Choice number on the Homecrest Order Form.

Additional Information:

- Custom Choice items cannot be changed or canceled once the order is placed.
- If specifications are altered, the Custom Choice item will need to be quoted again.
- For additional ideas, consult the Custom Choice Cabinetry section in the Homecrest Price and Specifications Guide.
- Custom Choice quotes are valid only within current launch cycle; quotes expire at new product launch and will require a re-quote to confirm product availability.
